## New York Stock Market SALES: 10 Allta-Chaimers, pfd., 13,30 Amaignment of Copper Amer, Agri. Chem., c

#### RICHMOND STOCK MARKEY.

Official Range and Sale of Stocks in New York.

By THOMAS BRANCH & CO., Bankers and Brokers, Open, High, Low, Closing, New York, January 11.—The stock market was dull and narrow to-day and the undertone was heavy. Many rumors which were a factor in the early trading proved to be groundless, the opinion of the insiders being that changes in the make-up of various local banks and trust companies might go far toward clearing up existing uncertainty. Trading was largely of a drifting character, and at times was almost at a standstill. The protessional element showed a disposition to take the short side, but support was offered on slight cencersions and fluctuations were confined for the most part to narrow limits.

The proposed increase of \$100.000,000 in the capitalization of the Fennsylvania Railroad announced late in the day was interpreted as a beartsh argument and was responsible for a final drive at prices which placed them manuterially below yesterdays close. The railway lists showed a pronounced downward tendency on this movement, New York Central and Pennsylvania sustaining the largest losses Amaling and Copper was affected by the unsatisfactory condition of the raw typer market, and a further sharp break in the prices of copper shares was reported from gbroad. It is generally believed that the short interest in Amaigamated Copper has reached any proportions.

The movement in United States Sign.

### An Economical Stockholder

Asked us the other day if we thought the money spent in advertising paid the Company. Our prompt reply was, yes. And we told him that one of the reasons his Company had made THREE times as much money last year as it ever made in any year of its history was that we let the people know something about the beneficial services rendered by a Trust Company.

Our motive in mentioning the above is that there are thousands of prudent men and women in Virginia who would make this Company their Executor and Trustee if they understood the safety and wisdom of doing so.

All we ask is the privilege of explaining it. May we do so to you?
